

Installation Guide

Matrix Panel

WARNING: Risk of electrical shock. Please read these instructions completely and carefully. Disconnect power before servicing or installing product.

- 1 Ensure lightbox surface is clean and free from debris. We recommend ensuring the internal surfaces are painted matte white to encourage illumination.

- 3 Remove double sided tape and firmly press panels in place.

- 5 Connect the panels the transformer and power up, testing to ensured they are wired up correctly.

- 2 Arrange matrix spectrum panels in a grid-like fashion within the light box. Measure and trim panels to desired size, ensuring to only trim the panels at the marked cut lines.

- 4 Connect panels together using included connectors, ensuring to not exceed the maximum series. Wire panels in parallel if required to avoid voltage drop.
